

Ivanios Spectrum

Quarterly Newsletter | April to June 2026 | Vol. 6

Principal's Message

Dear Parents, Students, Staff, and Well-Wishers,

It is with immense joy that I welcome you to a new academic year and to the sixth edition of Ivanios Spectrum. As we begin another year of learning, growth, and excellence, I thank every member of the MIS family for making the previous academic year a memorable one.

We are delighted to welcome 140 new students to Mar Ivanios School. This milestone reflects the trust our parents have placed in us. Your recommendations, encouragement, and unwavering support have made you our true brand ambassadors, carrying the values of MIS wherever you go. We sincerely thank you for your invaluable contribution to our school's growth.

My heartfelt appreciation also goes to our dedicated teachers and administrative team, whose commitment and tireless efforts continue to create a nurturing environment where every child can thrive.

This edition offers a bird's-eye view of the memorable moments, achievements, and learning experiences of the first quarter. I hope these pages fill you with pride and reflect the vibrant spirit of the MIS family.

Happy Reading!

With warm regards,
Principal

Preparing for a Year of Possibilities

We believe that empowered teachers inspire empowered learners. During our Teacher Orientation Programme, our Patron, Bishop Thomas Mar Antonios, delivered an inspiring session on "From Classroom to Character," reminding educators that teaching is not just about imparting knowledge but about nurturing values, building character, and shaping responsible future citizens.

Dr. Atul Nasa, Pro-Vice-Chancellor, SGT University, conducted an insightful session on "Empowering Teachers to Shape Future-Ready Learners." He encouraged educators to embrace innovative teaching practices and inspire students with the skills and mindset needed for the future.

Stepping into a Year of Possibilities

As the school gates reopened, the Mar Ivanios School campus once again echoed with the cheerful voices and bright smiles of our students. Filled with enthusiasm and anticipation, they stepped into a new academic year ready to explore, learn, and grow. The first day marked not just a return to classrooms, but the beginning of new opportunities, fresh experiences, and countless possibilities waiting to unfold.

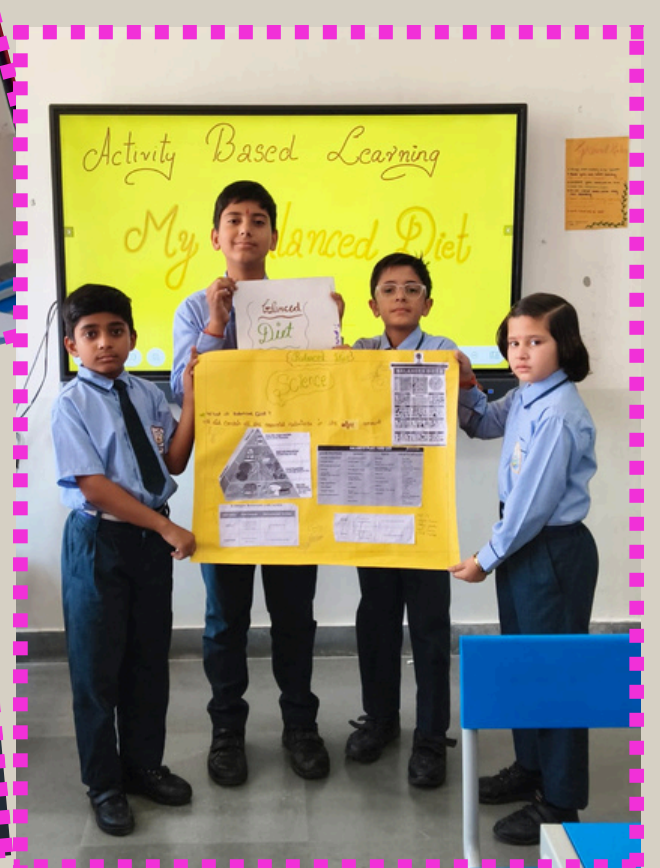

ABL Corner

Engage, Explore, Learn

At MIS, we believe that learning comes alive when children are encouraged to engage, explore, and discover. The ABL Corner provides meaningful hands-on experiences that ignite curiosity, foster creativity, and transform learning into an exciting journey of growth. Here, students become active participants, confident explorers, and lifelong learners.

Special Assembly Corner

Moments that Inspire and Empower

World Health Day

At MIS, special assemblies provide a vibrant platform for students to express themselves, showcase their talents, and build essential life skills. Throughout the academic year, each class is given an opportunity to present programmes based on important events, national celebrations, social themes, and other significant occasions. These assemblies make learning more meaningful by encouraging participation, creativity, and confidence, while also helping students connect classroom learning with real-life experiences.

National Civil Services Day

International Nurses Day

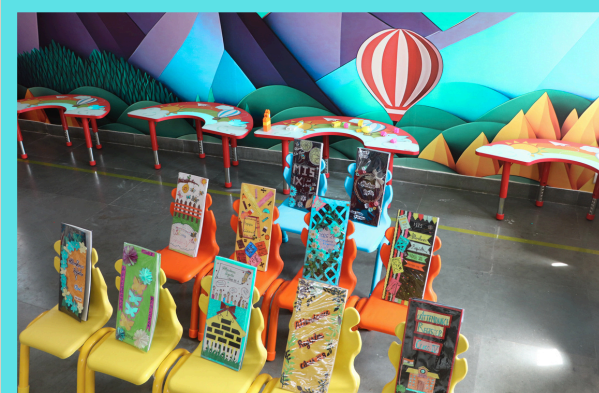

Every child deserves a stage, an audience, and an opportunity to shine

Skill Saturday Activity Corner

At MIS, we believe that true education goes beyond academics, fostering the skills and values needed for holistic development. Through Skill Saturday, students engage in meaningful activities that nurture creativity, self-expression, and essential life skills.

During the first quarter, students participated enthusiastically in activities such as "Our Register, Our Pride," celebrating their identity as members of the MIS family. Special activities for Mother's Day and Father's Day encouraged students to express their love and gratitude through handmade gifts, cards, and heartfelt messages.

Our Register, Our Pride

A Tribute to our Beloved Mothers

Father's Day Special

**At MIS, every child matters,
every talent counts**

Skill Saturday Competition Corner

As part of Skill Saturday, students showcased their talents through two exciting competitions – Spell Bee and Canvas of Imagination. While Spell Bee enhanced vocabulary and language skills, Canvas of Imagination provided a platform for students to express their creativity through art. These competitions encouraged confidence, creativity, and a spirit of healthy competition among our young learners.

Kinder Kaleidoscope

Capturing Moments from our Youngest Learners

The beginning of a school journey is always special. This year, our Nursery children stepped into MIS for the very first time, entering the portals of learning and discovering their second home.

Our LKG and UKG students also filled the campus with joy, curiosity, and enthusiasm as they explored new experiences and began their early learning journey with excitement.

Guided by our dedicated Kindergarten faculty, every child is nurtured with care, love, and attention, laying a strong foundation for confidence, creativity, and lifelong learning.

Here are a few glimpses from the first quarter.

Partnership with Parents

Together, we Nurture. Together, we Inspire.

THE JOURNEY CONTINUES ...

At MIS, we believe that parents are our strongest partners in every child's learning journey. During the first quarter, our Nursery parents entrusted us with their little ones as they began their school life. Parents across the school community also actively participated in the Parent Orientation Programme and supported our events by serving as judges for the "Dress Me a Story" and "Canvas of Imagination" competitions. Together, we continue to build a caring and collaborative learning community.
